Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/539,412	Applicant(s) MAUVEZIN ET AL.	
	Examiner David E. Gallis	Art Unit 1625	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1625

DETAILED ACTION

1. Claims 1 through 19 are pending. Claims 4 through 8, 11 through 14, and 17 through 19 have been amended.

Objections to Drawings

2. The drawings are objected to because they are absent from the specification. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. The specification references Figures 1, 2a, 2b, 3, 4a, 4b, and 5, and the specification is replete with references to labeled features (i.e.

A1, A2, L, Di, etc.), Applicant is required to furnish drawing(s) under 37 CFR 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). Accordingly, no claims have been further treated on the merits. Furthermore, no drawings accompanied the certified translation of the foreign priority application thereby offering the Examiner no set of reference drawings to verify that no new matter has been introduced on receipt of the "Replacement Sheets". Therefore, the priority date of December 19, 2002 cannot be granted at this point in the prosecution of the instant application.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1 through 19 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Drawings of the claimed reactor, including its unique features, critical or essential to the practice of the invention, but not included in the claim(s) are not presented (enabled) by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). Claims 4, and 7 through 10 specifically reference features of the drawings not provided in the instant application, and in the absence of drawings, Claim 1 would require a pictorial reconstruction of the text to

facilitate understanding of the invention. Clearly, in the absence of drawings, one of skill in the art is not enabled to make and use the claimed invention.

Claims 1, 2, 3, 5, 6, and 11 through 19 are dependent on rejected claim 1.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David E. Gallis whose telephone number is 571-272-9068. The examiner can normally be reached on Mon-Fri 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Janet Andres can be reached on 571-272-1600. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
